Universitetssykehus (St. Olavs hospital HF)

I praksis har Universitetssykehus (St. Olav) p.t. tilgang til nesten alle ressursene som NTNU har tilgang til (inkl ressurser som ikke nødvendigvis er medisin- og helseressurser). Inkludert

i dette er også Sikt-avtalene. Unntaket har vært rene publiseringsavtaler (og dekning av evt APC'er for ren OA-publisering i PAR-avtaler).

Denne listen inneholder de mest aktuelle avtalene fra tidl. Helsebiblioteket, via EBSCO og Sikt (der NTNU/St. Olav har mer enn 25% bruk (antall titler, antall nedlastinger, siteringer eller publikasjoner) i medisin- og helseressurser definert av Norsk publiseringsindikator)
